News Announcement For Immediate Release

REX AMERICAN RESOURCESFIRST QUARTER REVENUE RISES TO \$151 MILLION; DILUTED EPS OF \$0.11

Dayton, Ohio, (May 30, 2012) — REX American Resources Corporation (NYSE: REX) today reported financial results for its fiscal 2012 first quarter ("Q1 '12") ended April 30, 2012. REX management will host a conference call and webcast today at 11:00 a.m. ET:

Conference Call: 212/231-2935

Webcast / Replay URL: www.rexamerican.com/Corp/Page4.aspx

The webcast will be available for replay for 30 days

REX's Q1 '12 results primarily reflect its alternative energy segment interests in seven operating ethanol production facilities. The operations of One Earth Energy, LLC ("One Earth") and NuGen Energy, LLC ("NuGen") are consolidated (on November 1, 2011, REX acquired an additional approximate 50% equity ownership interest in NuGen raising its equity ownership in the entity to approximately 98%) while those of its five other operating plants are reported as equity in income of unconsolidated ethanol affiliates. REX's Q1 '12 net sales and revenue rose 86.1% to \$151.0 million, from \$81.2 million in Q1 '11, primarily reflecting the consolidation of NuGen.

REX recognizes certain results from its ethanol interests on a quarterly calendar basis, and as a result, REX's Q1 includes results from ethanol operations for the period January 1, 2012 through March 31, 2012, with the exception of NuGen which is for the period February 1, 2012 through April 30, 2012.

Reflecting the recent industry-wide compression of ethanol margins and lower income from discontinued operations, net income attributable to REX shareholders in Q1 '12 was \$0.9 million, or \$0.11 per diluted share, compared with \$4.7 million, or \$0.49 per diluted share, in Q1 '11. Q1 '12 income from continuing operations net of tax attributable to REX shareholders was \$0.8 million, or \$0.09 per diluted share, compared with \$4.1 million, or \$0.44 per diluted share, in Q1 '11. REX recorded income from discontinued operations of \$0.2 million, or \$0.02 per diluted share for Q1 '12. In the comparable year-ago period income from discontinued operations was \$0.4 million, or \$0.04 per share and the Company also recorded a \$0.1 million after tax gain on disposal of discontinued operations which amounted to \$0.01 per diluted share. Per share results in Q1 '12 and Q1 '11 are based on 8,439,000 and 9,560,000 diluted weighted average shares outstanding, respectively. The 11.7% reduction in the shares outstanding principally reflects the Company's repurchase of 1,305,589 shares in open market transactions in FY '11, partially offset by shares exercised pursuant to options.

Gross profit from REX's consolidated alternative energy operations rose 15.3% to \$5.5 million in Q1 '12 from \$4.8 million in Q1' 11 primarily reflecting the consolidation of NuGen's operations in the Company's results. In Q1 '12, equity in income of unconsolidated ethanol affiliates declined to \$0.4 million from \$5.8 million in Q1 '11 primarily due to REX's interest in NuGen now being consolidated as well as lower overall results from the Company's unconsolidated ethanol production interests. REX's Q1 '12 income from continuing operations before income taxes and non-controlling interests was \$1.9 million compared with \$7.7 million in Q1 '11.

In aggregate, the seven ethanol production plants in which REX has interests sold 180.7 million gallons of ethanol in Q1 '12 and REX's effective ownership interest of those sales was approximately 63.8 million gallons. Sales from corn oil production was \$2.9 million in Q1' 12 as One Earth and NuGen commenced corn oil production in January and March 2012, respectively.

Recent Developments

- In February 2012, NuGen repurchased shares which had the effect of raising REX's equity ownership in the facility to 99% from 98%.
- § Effective December 1, 2011, reflecting its 10% interest in Big River Resources, LLC, REX received a 10% interest in Big River Resources, Boyceville which operates a 55 mgy nameplate plant built by Fagen, Inc. with ICM, Inc. technology in Boyceville, WI.
- § Effective January 1, 2012, REX acquired an additional 3% ownership interest in Patriot Holdings, LLC for \$1.9 million which increased its ownership in Patriot to 26%.

REX CEO, Stuart Rose, commented, "Initiatives to expand REX's interests in state-of-the-art ethanol plants in the corn belt utilizing ICM, Inc. technology, and overall operating discipline at both the plant and corporate level drove industry out-performance in Q1 '12 despite the challenging operating environment.

"We believe our expanded scale has positioned REX as one of the leading companies in the ethanol industry and we remain focused on achieving long-term growth. Currently the ethanol production industry's profitability is impacted by reduced crush margins. Rising dried distillers' grains pricing has allowed us to partially offset this adverse environment. In addition, we recently installed state-of-the-art corn oil extraction systems at our two consolidated facilities to optimize utilization and further diversify the offerings from our plants.

"Though ethanol production remains a business driven by commodity price fluctuations, we consider our operating and financial model to be amongst the best in the industry, as our plants were built with leading technology and acquired at attractive valuations. As reflected by the first quarter results, this model positions us to outperform the industry even during challenging periods."

Balance Sheet and Share Repurchase Program

At April 30, 2012, REX had cash and cash equivalents of \$72.1 million, \$45.8 million of which was at the parent and approximately \$26.3 million of which was at its consolidated ethanol production facilities. This compares with cash and cash equivalents of \$75.0 million at January 31, 2012, \$46.1 million of which was at the parent and \$28.9 million of which was at its consolidated ethanol production facility.

REX had no share repurchase activity in Q1 '12 and is presently authorized to repurchase up to 162,455 shares of its common stock.

At April 30, 2012, REX had lease agreements, as landlord for six former retail store locations. REX has 15 owned former retail stores that were vacant at April 30, 2012, which it is marketing to lease or sell. In addition, one former distribution center is partially leased, partially occupied by the REX corporate office and partially vacant. The real estate segment revenue reflects rental income derived from these sites.
