Dayton, Ohio, (September 1, 2021) -- REX American Resources Corporation (NYSE: REX) ("REX" or "the Company") today reported financial results for its fiscal 2021 second quarter ("Q2 '21") ended July 31, 2021. REX management will host a conference call and webcast today at 11:00 a.m. ET.

REX American Resources' Q2 '21 results principally reflect its interests in six ethanol production facilities and its refined coal operation. The One Earth Energy, LLC ("One Earth") and NuGen Energy, LLC ("NuGen") ethanol production facilities are consolidated, as is the refined coal entity, while the four other ethanol plants are reported as equity in income of unconsolidated ethanol affiliates. The Company reports results for its two business segments as ethanol and by-products, and refined coal.

REX's Q2 '21 net sales and revenue were \$195.8 million, compared with \$39.3 million in Q2 '20. The year-over-year net sales and revenue increase was primarily due to higher ethanol production levels as compared to the prior year levels, which were significantly impacted by the Covid-19 pandemic, as well as higher ethanol, distillers grains, and corn oil pricing. Primarily reflecting the revenue growth, offset in part by increased input corn pricing, Q2 '21 gross profit for the Company's ethanol and by-products segment increased to \$14.2 million, compared with \$0.6 million in Q2 '20. As a result, the ethanol and by-products segment had income before income taxes of \$10.7 million in Q2 '21, compared to a loss of \$3.3 million in Q2 '20. The Company's refined coal operation incurred a \$3.1 million gross loss and a \$3.5 million loss before income taxes in Q2 '21, compared to a \$1.9 million gross loss and a loss before income taxes of \$2.1 million in Q2 '20. REX reported Q2 '21 income before income taxes and non-controlling interests of \$6.4 million, compared with a loss before income taxes and non-controlling interests of \$6.1 million in the comparable year ago period. While the refined coal operation negatively impacted gross profit and income before income taxes, it contributed a tax benefit of \$5.4 million and \$2.9 million in Q2 '21 and Q2 '20, respectively.

Net income attributable to REX shareholders in Q2 '21 was \$7.9 million, compared to a net loss of \$1.7 million in Q2 '20. Q2 '21 basic and diluted net income per share attributable to REX common shareholders was \$1.31, compared to a net loss per share of \$0.28 in Q2 '20. Per share results in Q2 '21 and Q2 '20 are based on 6,011,000 and 6,216,000 diluted weighted average shares outstanding, respectively.

REX American Resources' Chief Executive Officer, Zafar Rizvi, commented, "The resiliency of our business and effectiveness of our operations is evident in our second quarter operating results. With the return to more normalized demand compared to the prior year during the fiscal 2021 second quarter, and improved pricing, we continued to leverage our strategic locations across the corn belt and healthy liquidity position to generate second quarter net income of \$7.9 million and earnings per share of \$1.31.

"Subsequent to the end of the fiscal second quarter, we repurchased the remaining shares under our most recent repurchase authorization and our Board of Directors has authorized the repurchase of up to an additional 500,000 shares of our common stock. We remain focused on enhancing shareholder value through our disciplined operating approach and strategic use of our strong balance sheet and liquidity position."
